

BEST BALL COMPETITION

Post your individual gross scores on the card as you normally would in regular play.

Across the bottom line of the card post the BEST net score of the players on the card. If you all took 4 and three players had one stroke handicap, then your net score would be 3.

Handicaps will be shown on the cards to a maximum of 18 strokes. The card captains will have to mark the handicaps on their card. A sample will be at the starter's desk.

The Card Captain is responsible to make sure the cards are completed and gross scores posted on the computer in the usual manner.
